5.30.0ET/ 25X1 Comment. The information by source on the occupation of the Generalfeldzeugmeister Kaserne checks with previous information by the same and another source in late August 1952. appears plausible that the bulk of the 12hth My New Arty Pric (25) and 25X1 other units of the 6th Arty Div believed stationed in the installation may have been at the post on 2 October. Comment. On 30 September, another source reported the wilcoding the Flak Kaserme of two trains of the 3d Gds Army AT Arty Frig of the 25X1 Third Shock Army and reported that, at that time, the installation was occupied almost to capacity. That information does not conflict with the present report inasmuch as it also contains large movements on and after 30 September.
